Scenic Paradise

Brisbane River Cruises

FEW trips there are around Brisbane that offer such magnificent scenery and delightful recreation as the popular river cruises from North Quay to Lone Pine, the well-known picnic ground and model zoo.

Once aboard the fast, well-appointed launches the tourist can relax and view the many points of interest on both sides of the river. There is quite a thrill passing underneath the huge new Grey Street Bridge, and then as the launch wends its way around the majestic reaches of the Brisbane River one can appreciate the beauty of Brisbane seen from a different viewpoint.

There is something about river travel that makes it more fascinating than a motor car tour. Passing through the picturesque suburbs of Toowong and Indooroopilly where fine homes, gardens and trees enhance the natural beauty of the river banks, the river cruise never grows uninteresting and by the time Lone Pine is reached the tourist has enjoyed one of the finest trips it has been possible to plan. At Lone Pine there is much of interest in the way of Birds, Native Animals, including the world famous "Koala" or Native Bear. In the spacious and well-conducted Koisk refreshments are obtainable.

Launch leaves daily at 2 p.m., Sundays and holidays, 10 a.m. and 2 p.m.

Tickets for these cruises may be obtained at the Government Tourist Bureau, George Street, Brisbane. or on the Launch; 2/- return.
